

# 2nd Annual *MN Singing For Smiles*

**Fundraiser to Raise Awareness & Stop the Stigma of Mental Illness**

All proceeds will be donated to NAMI (National Alliance for Mental Illness)

Emma's smile doesn't show that she has depression. You can't tell by looking at her that she has a mental illness. It takes courage today to talk about mental illness, but should it?

Emma Lewis (age 16) is using her personal journey to change the awareness about mental illness and help others.
